

JABRA AND ZOOM FOR EDUCATION

Enhancing remote learning through simple, flexible, reliable collaboration

The right technology is instrumental

As teachers around the world adapt to the challenges of keeping their students engaged through a computer screen, the right technology is instrumental in ensuring a good remote learning experience for everyone. Zoom-optimized Jabra products provide outstanding professional-grade collaboration, so teachers and students get the best experience on the platform. Support your teachers with the right technology and help everyone get more from online lessons by ensuring the devices they're using stay off their list of distractions.

Enabling accessible remote learning

Our range of professional video and audio solutions enhance teaching and increase accessibility for everyone, ensuring everyone can participate equally, and remain focused and engaged. Each device is specifically optimized for Zoom, delivering a rich, seamless audio and video experience for both teachers and students.

Unique video technology

Jabra PanaCast is a professional video conferencing camera that's completely unique in the market – delivering a full 180° view of the classroom. Zoom-certified with a custom software integration, PanaCast helps teachers to create a truly collaborative classroom from anywhere. Whatever the setup, PanaCast and Zoom deliver a great experience, every time.

World-leading audio capabilities

High-quality audio is essential for a great remote learning experience, while at the same time improving the closed captioning functionality for those who need it.

Jabra Speak 750 is a premium, portable speakerphone that delivers outstanding professional-grade call quality.

Jabra Evolve is a range of professional-grade headsets that deliver world-leading call performance.

All of these outstanding audio solutions are optimized for Zoom, allowing teachers to communicate quickly and easily with their class, and guaranteeing the best experience when using the platform.

OUTSTANDING BENEFITS

Plug-and-play & perfectly portable

All of these devices work right out of the box, for instant collaboration anywhere – making them perfect for even the least tech-savvy. And for maximum flexibility, they're also extremely portable. Just unplug, move, plug in, and go.

Peace of mind

Jabra is an official technology partner of Zoom. The Jabra PanaCast is Zoom-certified, while the Evolve and Speak Series are optimized for the Zoom platform, for maximum peace of mind that the deployed devices will work seamlessly in the Zoom environment.

Together, Jabra and Zoom help to deliver an outstanding learning experience for everyone.

Certified for Zoom

Jabra PanaCast is Zoom certified and was selected as being the first camera that could deliver three individual video streams in a single product.
