

# Thales solutions for Microsoft Double Key Encryption (DKE)

# Double Key Encryption for Microsoft 365

DKE for M365 and Thales solutions work together to enable organizations to protect their sensitive data while maintaining control of their encryption keys.

The solution uses two keys to protect data. Viewing data protected with DKE requires access to both keys.

Manage access to your keys across your entire hybrid and multi-cloud estate with a common platform

THALES

Thales helps to simplify compliance to privacy regulations such as GDPR, Shrems II, PCI-DSS, CCPA
