

Modern Learning Needs Modern Connectivity

How European School Frankfurt future-proofed its digital infrastructure with RUCKUS

Engineered for High-Density Demands

1,600 Students.

100% Campus Coverage.

Supports 1,600 students + staff across all grade levels

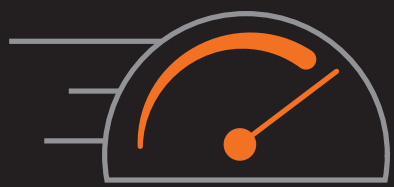

Handles peak usage during class changes, assemblies, and exams—no dropouts, no buffering

Reliable, Centralized, Future-Ready

0 Disruptions.

1 Unified Network.

Upgrade completed on schedule with zero disruption to daily school operations

Centralized controller enables real-time network monitoring + performance optimization

Trusted by European School Frankfurt

“We are now well positioned to both organize school operations efficiently and actively support the digital transformation in the classroom.” —Oliver Kurz

IT System Administrator,
European School Frankfurt
