

mimecast

Every **39 seconds**,
a cyberattack happens¹,
putting enterprise
data at risk.

¹ Verizon 2025 Data Breach Investigations Report

The background is a dark blue gradient with various tech-related icons: gears, a padlock, a folder, and a large envelope. A red rounded rectangle in the top left contains the 'mimecast' logo in white. A large white circle on the right also contains the 'mimecast' logo in dark blue. The main text is at the bottom in white.

mimecast

mimecast

Mimecast safeguards sensitive information, addressing insider risk and preventing data exfiltration across email, endpoints, browsers, and the cloud.

mimecast

Email protection

Email powers over 300 billion daily² communications worldwide and remains a top target for data breaches.

² Verizon 2025 Data Breach Investigations Report

- **Browser protection**
Beyond email, Mimecast delivers intelligent protection for endpoints and web browsers.
- Through integration with your security ecosystem, we monitor unusual downloads, unauthorized file sharing, and suspicious activities.
- Immediate actions like blocking, encrypting, or isolating endpoints ensures your data remain safeguarded.

mimecast

Cloud protection

For organizations driving innovation in the cloud, Mimecast secures your data in SaaS apps and hybrid environments.

mimecast

**Mimecast's integrated
DLP framework ensures
seamless data protection
across every channel.**
