

# 5 ways Zoom is making meetings better for *everyone*

Whether you sign, speak, or type — these AI updates are built for you.

 **zoom AI Companion**

Because  
clear  
captions =  
better  
meetings  
for everyone.

Our updated Speech AI  
delivers captions that  
*actually* keep up.

- ✓ Always catch what's said — no matter who's honking, chatting, or barking in the background.
- ✓ Understand fast or complex speaking.
- ✓ Get even more accurate summaries and action items from AI Companion.

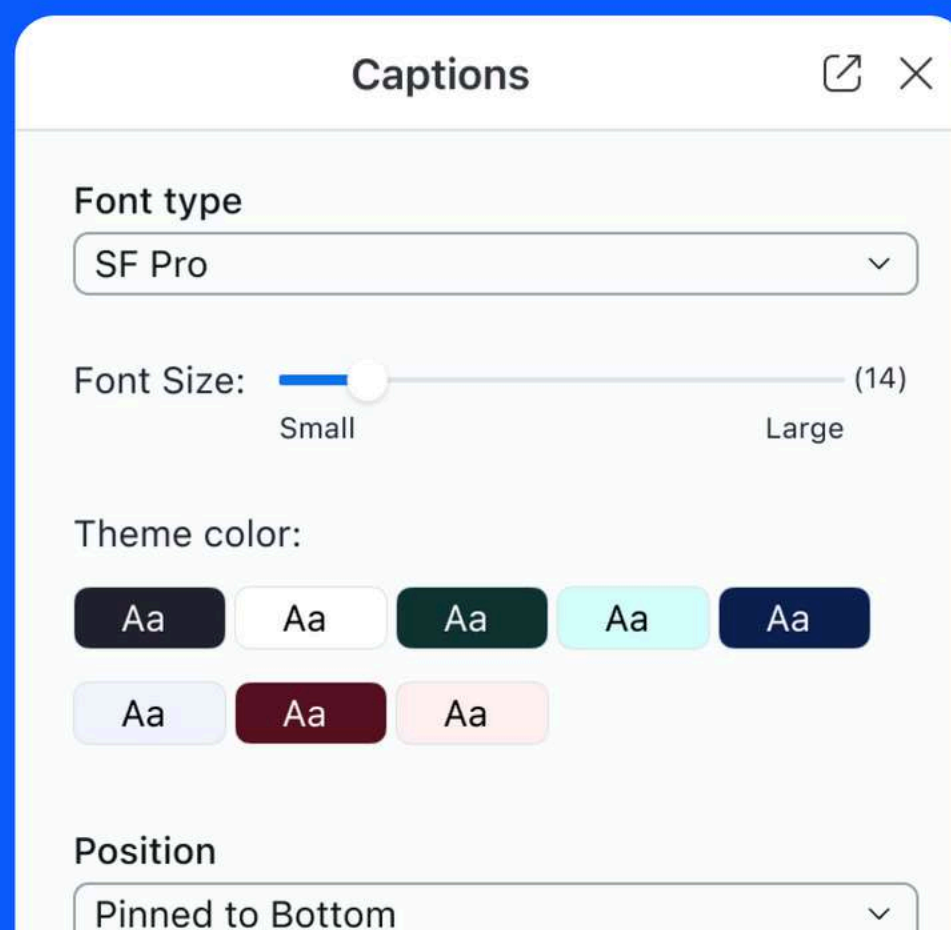

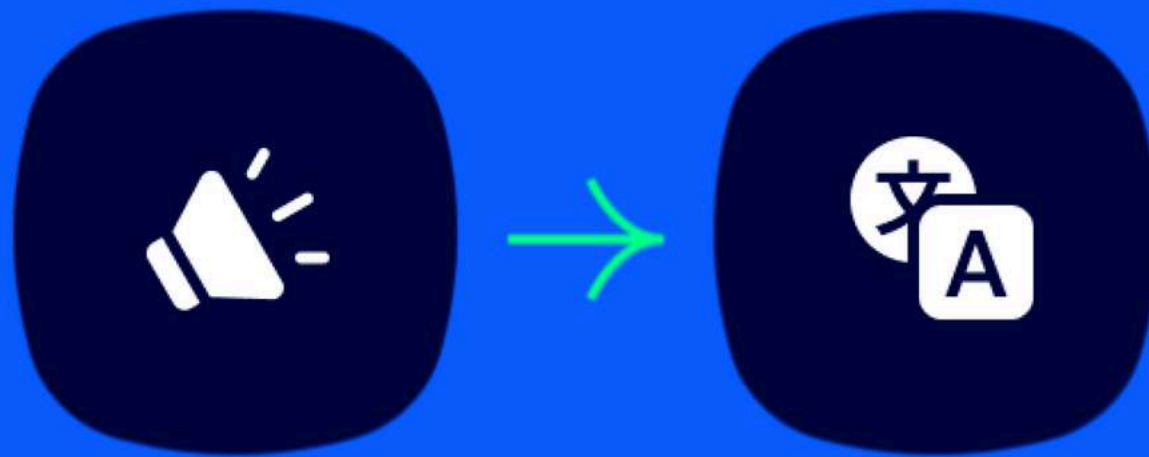

# Make your captions more "you" by personalizing:

- ✓ Font size and color
- ✓ Background opacity
- ✓ On-screen location

Whether you rely on captions or just prefer them — you're in control.

A screenshot of a 'Captions' settings panel. The panel has a title bar with 'Captions' and a close button. It contains three sections: 'Font type' with a dropdown menu showing 'SF Pro'; 'Font Size' with a slider ranging from 'Small' to 'Large' (set at 14); 'Theme color' with a row of seven color swatches (dark blue, white, dark green, light blue, dark blue, light blue, dark blue) and a row of three more swatches (light blue, dark red, light pink); and 'Position' with a dropdown menu showing 'Pinned to Bottom'.

Great for global teams,  
virtual classrooms, and  
multilingual events.

Our real-time translated captions now  
support dozens of languages — from Arabic  
to Mandarin, Spanish, and more.

Just pick the one that works for you and stay  
in sync, no matter who's speaking.

# Speakers switching between languages mid-sentence?

Our AI picks up on language shifts in real time — no pausing, no repeating, no problem.

## Speak naturally. Zoom will keep up.

### Confirm your speaking language

It sounds like you might have switched to a different language. Please update it so we can provide a better quality
