

**Traditional AI: "Just  
tell me what to do."**

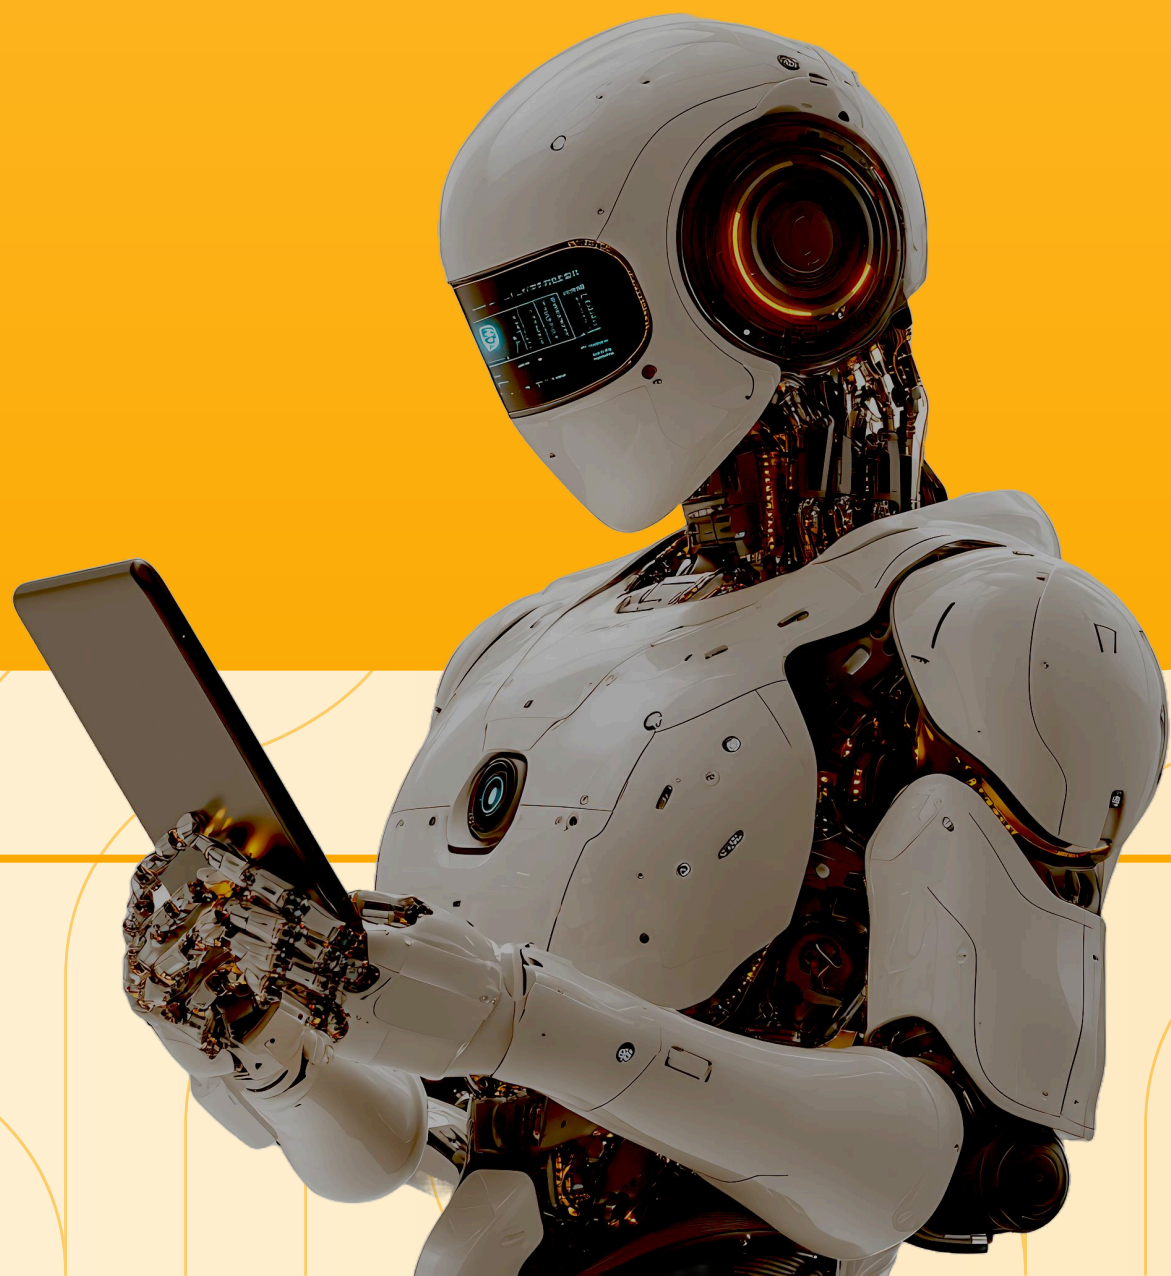

**Good at tasks.**

**Terrible at initiative.**

**AI Agents: Smarter,  
but still waiting for  
instructions.**

**Plans steps and chooses  
tools but needs a human  
to start the engine.**

**Agentic AI: Thinks,  
acts, and adapts.**

**Understands goals,  
makes decisions, and  
adjusts in real time.**
