Integrated Solutions for Identity
Security 2025 Vendor Assessment

Here's how AD360 delivers identity security

Risk exposure management

- ◆ Map real attack paths in AD
- ◆ Identify risky users, groups, and privileges
- ◆ Get guided remediation to reduce exposure

Identity risk assessment

- ◆ Assess hybrid AD and Microsoft 365 risks
- ◆ Analyze privilege escalation routes and vulnerabilities
- ◆ Prioritize fixes with actionable insights

Attack Surface Analyzer

- ◆ Detect 25+ common AD attack techniques
- ◆ Uncover risky cloud and on-premises configurations
- ◆ Reveal exposure across servers and controllers

User behavior analytics

- ◆ Detect insider threats and privilege misuse
- ◆ Flag abnormal logins and account activity
- ◆ Alert admins instantly on high-risk behavior
