

AI Has Entered the Next Phase: **Connected Work + Digital Personas**

88% of organizations now report regular AI use – what comes next is architecture, alignment, and agents that think like teammates.

From Tools to Team-Mates: **What's Next for Enterprise AI**

- Over 50 million projects live on our platform – \$400 B in transformations delivered.
- Planview Anvi moves from assistant to decision-maker, blending human judgment with machine speed.
- The future of work: smaller teams, bigger impact – enabled by intelligent agents.

To Harness the Next Wave, You Must Build the Foundations

- ✓ Architecture that connects strategy, work, teams, and data.
- ✓ Guardrails for governance, trust, and the evolving human + digital workforce.
- ✓ Adaptability is the core capability – change is inevitable, not optional.
